Subject: Rilda Canyon Fan Installation

To All:

I am send this to all of you to provide an update of the portal development work in Rilda Canyon. To date, we have successfully complete the test startup of the fan during the Thanksgiving Day holiday. However, there are some minor adjustments (fan blade tuning, PLC programming, communications links, etc.) that are needed prior to bring the fan on-line. We will continue to perform work including pad development on a limited basis in the canyon until the fan is completely on-line and functioning properly. We anticipate completing this work around the 21st of December. If you have any questions or concerns please contact me at your convenience.

Best Regards,

Dennis Oakley
Senior Environmental Engineer
